### **Use of Spikes**

- Spikes may be worn by all athletes in all events under VAL rules. There are no size restrictions as to the length of spikes.
- As a guide, athletes should only consider using 7mm or 9mm.
- U9 and U10 athletes are not permitted to use spikes in normal LAVic events. They are allowed in VAL events only, however it is not recommended.

### **Crouch Starts**

- Crouch starts are permitted, but are not mandatory, in all events, but in the 400mts and 800mts Heats, they might not be possible due to the time handicaps, as the athletes are lined up behind each other.

### **3 Point Starts**

- 3 point starts, where one hand touches the ground forward of the line, yet your feet are behind the line is permitted in circular events in VAL races only.
- This is not permitted in normal LAVic events.
- This is an alternate to the crouch or standing start.
- In the 400mts and 800mts Heats, they might not be possible due to the time handicaps, as the athletes are lined up behind each other.

### **Lining up for your Race**

- In sprint events athletes will line up at the end of the track in a line whilst the starter tells the field the instructions. Athletes will then be told to walk to their marks or handicaps.
- In the Heats of the 400mts and 800mts, all athletes will line up at the start line, whilst the starters and LAVic volunteers provide the instructions.
- In the Final of the 400mts, 800mts and 1600mts circular events all athletes will be whistled to line up at the backmarkers handicap. This means the spot where the athlete with the lowest handicap is starting. You will be given instructions by the starter then told to walk to your marks or handicaps.

Do not be too concerned about where athletes have to go. There will be plenty of help from SAC and LAVic volunteers to assist the athletes in finding their mark.
