

TO: Centre & Region Secretaries

FROM: Anthony McIntosh – Chief Executive Officer

DATE: Monday, 22 June 2020

SUBJECT: COVID-19 restrictions update

Over the weekend, the Victorian State Government confirmed the easing of some restrictions, and the tightening of others. These come into effect today.

LAVic is awaiting advice from the State Government to provide us with clarity for:

- Restrictions & protocols to comply with for conducting Cross-Country competition;
- A possible easing of some restrictions & protocols around conducting modified training.

LAVic has a responsibility to its members, Centre committees, volunteers, coaches, officials and the community to ensure that Centres can conduct sanctioned activities safely and in accordance with the law.

To that end, Centres are reminded that they are unable to conduct training and competition activities unless they have received authorisation from LAVic, and that it is comfortable that the Centre has the required measures in place.

Authorisation to conduct modified training

Centres authorised to conduct modified training (as at 22.06.20) are: Caulfield, Coburg, Doncaster, Keilor, Kew, Knox, Whittlesea City and Yarra Ranges. Remaining Centres are also encouraged to seek authorisation. Protocols for conducting modified training can be found [HERE](#). LAVic's COVID-19 website page can be viewed [HERE](#).

Authorisation to conduct Cross-Country competition

As soon as the State Government provides the protocols for return to competition, LAVic will communicate its protocols and authorisation process for Centres seeking to conduct Cross-Country competition.

The LAVic team
