

TO: Region & Centre Secretaries
FROM: Anthony McIntosh - CEO
DATE: Friday 18th March 2022
SUBJECT: Victorian Centres: COVID-19 protocols and Centre Presentation events

With the summer Track & Field season coming to a close, many Centres will be holding their presentation days/events over the coming days and weeks.

The following applies to Victorian Centres only:

As Centres are aware, vaccination requirements do not apply to community sport, including Little Athletics (athletes, volunteers, coaches, officials, spectators etc).

However, the exception to vaccination requirements for community sport does not extend to non-sporting activities associated with community sport, such as social nights, fundraising events or committee meetings. This includes presentation days/events held separately to competition and training activities.

If the presentation day/event is not held in conjunction with competition or training, the following applies.

- Attendees aged 18 years and older attending a presentation event must be fully vaccinated.
- Attendees must register their attendance via the QR Code service.
- Attendees must show proof of vaccination.

All Centres are reminded to refer to the [LAVic COVID-19 Protocols](#) to ensure all Little Athletics activities are conducted in a COVID-safe manner, and that the risk of COVID-19 transmission is minimised.

The LAVic team.
